Our Services

- **PERSONAL CARE**

We can assist with daily tasks like showering, bathing, dressing, continence, and medication support - helping you look and feel your best!

- **LIGHT GARDENING**

With a passion for gardening, we're here to lend a hand whenever you need some help for your garden. Whether it's weeding, maintaining your veggie patch, or potting new plants, we're just a call away, ready to assist you.

- **DOMESTIC ASSISTANCE**

We can support you with jobs like cleaning, laundry, changing linen and ironing, so that you have more time to do what you enjoy.

- **IN-HOME RESPITE**

Whether it's for a day or overnight, our in-home respite service ensures we'll be there for you, allowing you to take a well-deserved break. rest assured, your loved one will receive attentive care, all while maintaining their usual routine.

- **NURSING**

Our nursing services are personalised to meet your specific needs. from medication management to dementia support, diabetes education, wound care, continence management, and post-hospitalisation assistance, we're here to support you every step of the way.

- **SPECIAL SUPPORT**

Our experienced carers can assist you with transport to and from appointments and social events.

- **CARE CO-ORDINATION**

Staying safe and independent at home can take a little extra support. Our experienced care co-ordinators help you across the right services without the stress of navigating it yourself. We handle the planning, scheduling and ongoing adjustments, so you can focus on what matters most.

From the 1st of November 2025, the Australian Government's Support at Home program represents a major transformation in aged care.

It is designed to improve in-home support for seniors, consolidating existing programs such as the Home Care Packages (HCP) and Short-Term Restorative Care (STRC). This initiative is a response to recommendations from the Royal Commission into Aged Care Quality and Safety, with the goal of helping older Australians live independently at home for as long as possible.

The program offers a range of benefits, from expanded care options to a more streamlined assessment process, prioritising equitable access to support for an ageing population.

THE TRANSITION TO SUPPORT AT HOME WILL BE IMPLEMENTED IN PHASES

1 NOVEMBER 2025:

The program will replace the current Home Care Packages and Short-Term Restorative Care. Seniors currently receiving these services will be automatically transitioned to Support at Home. They will retain their existing funding levels under the new framework, with no need for reassessment unless their circumstances change.

NO EARLIER THAN 1 JULY 2027:

The Commonwealth Home Support Programme (CHSP) will also transition into Support at Home, consolidating all major in-home aged care programs under a single system.

During the initial phase, home care recipients will be allocated Support at Home funding equivalent to their existing package levels, ensuring a seamless transition with minimal disruption. Providers like Bannister In Home Care will adhere to the new regulatory framework, including capped prices for services.

A NEW APPROACH TO ASSESSMENT AND PRIORITISATION

The introduction of the Single Assessment System, using the Integrated Assessment Tool, will standardise the evaluation process. This system will be in place from 1 November 2025, enabling more accurate determination of each individual's care needs. The assessment will result in a detailed support plan that outlines the participant's condition, goals, and required services. This streamlined approach helps ensure that the right level of support is provided from the start.

The program introduces eight funding classifications, replacing the current four levels of Home Care Packages, as well as two additional short-term classifications: the Restorative Care Pathway and the End-of-Life Pathway. Each classification is designed to match the assessed needs of participants, providing higher funding levels for those with more complex requirements.
